

I-84, Orchard Street Interchange

The Orchard Street Interchange will be under construction from spring 2009 to spring 2010. The interchange will be reconstructed to allow additional lanes to be built on I-84.

CONSTRUCTION TIMELINE

2009 SPRING
2009 SUMMER
2009 SUMMER/FALL
2009 LATE FALL
2009 2010 SPRING WINTER

Begin work on new bridge and local roads.

- Begin first five lanes of new bridge.
- Construct new roads south of the interchange.
- Begin work on new interchange ramps.

TRAFFIC IMPACTS

- Daytime noise from installing the bridge foundation.
- Temporary pavement and signal north of the bridge.

Open new roads south of the interchange.

- Tie new roads into the existing road network.
- Continue working on new interchange ramps.
- Vista Avenue Interchange construction expected to begin.

TRAFFIC IMPACTS

- I-84 closure while bridge girders are placed.
- Temporary pavement and signal south of the bridge.
- Traffic will use temporary off-ramps.
- Occasional nighttime off-ramp closures. I-84 traffic will exit at Cole or Vista.

Improve Orchard Street north of the bridge.

- Extend soundwall along westbound off-ramp.
- Add left- and right-turn lanes to Orchard Street.
- Continue working on new interchange ramps.
- I-84 widening expected to begin between Cole and Broadway.

TRAFFIC IMPACTS

- One lane in each direction will remain open at night on Orchard Street. Two lanes will stay open during daytime hours.
- Traffic will use temporary on- and off-ramps.

Open first five lanes of new bridge.

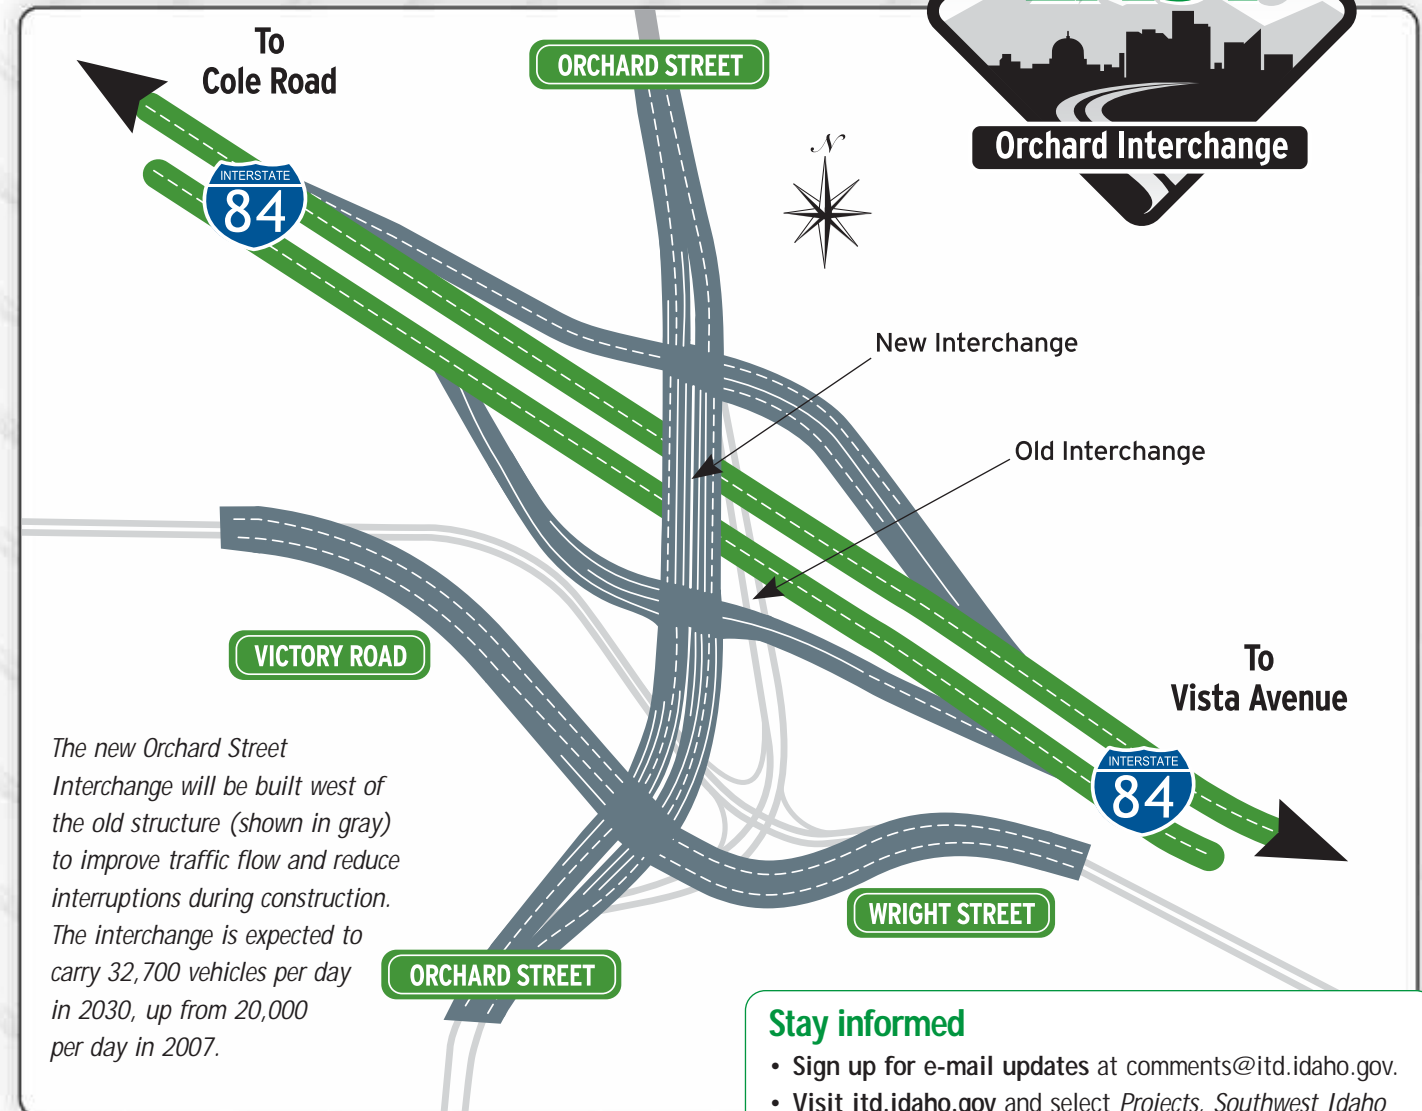

- Remove old bridge and construct remaining lanes of new bridge.
- Finish new interchange ramps.
- Pave roads south of the bridge.

TRAFFIC IMPACTS

- I-84 will be closed overnight when the old bridge is removed.
- Wright Street will be restricted to one lane at night.
- Traffic will use new bridge, ramps and roadways.

Open last three lanes of new bridge.

Complete project.
